TRANSACTION RELATED EXPERIENCE

nCino (NAS: NCNO) FinTech SaaS Sell-Side M&A Pitchbook

New Brunswick, New Jersey

Independent Case Project

Feb. 2026

- Developed a 32-page sell-side pitchbook targeting a 9x purchase multiple from 3.8x at the status quo suggesting 6 strategic buyers.
- Stress-tested exit assumptions with implied TGR table, and sensitized comparable multiples at varying WACC, EBITDA, and Revenues
- Built a bridge table visualizing 8.5x-9.5x purchase multiple from status quo with context from valuation methods and sector benchmarks.

Appian (NAS: APPN) SaaS Sell-Side M&A Pitchbook

New Brunswick, New Jersey

Independent Case Project

Apr. 2026

- Identified strategic M&A opportunities for legacy SaaS trading at ~4x discount to peer medians despite premium-commanding metrics
- Built a working capital schedule on AR, deferred revenues, and accrued comps to highlight realistic sources and uses through 10 years.
- Proposed a 7x purchase multiple derived from LTV analysis focused on longer-term contracts that provide added revenue visibility.

Boeing (NYSE: BA) \$500M Acquisition of Innovative Aerosystems (NAS: ISSC)

New Brunswick, New Jersey

Independent Case Project

Dec. 2025

- Developed a potential \$500M acquisition of ISSC by BA, developing deal rationale and identifying \$200M+ in 5-year synergies.
- Rationalized \$50M extra cost synergies by breaking acquirer by segment revealing at least 2 key commercial services overlaps.
- Modeled accretion/dilution sensitivity using purchase considerations, and target growth as levers ending in a BUY recommendation.

GitLab (NAS: GTLB) \$5.1B SaaS Leveraged Buyout Model and Recommendation

New Brunswick, New Jersey

Independent Case Project

Jan. 2026

- Structured \$1.9B debt package across 3 tranches, modeling amortization, cash sweeps, and covenant compliance over 7-year hold.
- Ran sensitivity analyses on entry/exit multiples, leverage, and EBITDA, achieving 3.1x MOIC and 18% IRR in the base case.
- Developed 12-page deck providing investment thesis hinged on company's NRR, Non-GAAP profitability, and discounted multiple.

WORK EXPERIENCE

Independent AI Exploration Group

New Brunswick, New Jersey
